

Reuterin® GG sticks

Food supplement

14 x 1.4 g orosoluble sticks

Reuterin® GG stick is a food supplement containing probiotics useful for balancing intestinal flora. Reuterin® GG stick consists of a mixture of 2 probiotic strains: *L. reuteri* LMG P-27481 and *L. rhamnosus* GG (ATCC 53103).

Scientific studies have shown that these probiotics are able to overcome the gastric barrier, to arrive alive and active in the intestine, colonising it. Probiotics are normal, non-pathogenic and non-toxic inhabitants of the human gastrointestinal tract and other body regions.

SAFETY

The safety of probiotics is largely demonstrated by numerous clinical studies on their use.

Reuterin® GG stick can also be taken by individuals who are intolerant to gluten and lactose.

DOSAGE AND INSTRUCTIONS FOR USE

The recommended dose is one stick daily, preferably between meals.

Open the stick and pour the contents directly into the mouth. One intake per day provides at least 10 billion of probiotics.

STORAGE CONDITIONS

Store in a cool and dry place at a temperature not exceeding 25°C, away from light, humidity and direct heat sources. Do not freeze.

WARNINGS

Food supplements should not be regarded as a replacement for a varied and balanced diet and a healthy lifestyle. Do not exceed the recommended daily dose.

Excessive consumption may have laxative effects. Keep out of the reach of children under three years of age. Consult your doctor before giving Reuterin® GG stick to children under three years of age.

The expiry date refers to the product in unopened packaging and correctly stored.
