

Reuterin[®] drops

L. reuteri DSM 17938

Food supplement

5 ml bottle

Reuterin[®] drops is a food supplement with probiotics containing *L.reuteri* DSM 17938. The patented strain of *L.reuteri* colonises the intestine and helps to balance the intestinal flora.

Published scientific papers show that *L.reuteri* DSM 17938:

- is active and vital in the environmental conditions present in the intestine;
- is resistant to gastric acid, bile and pancreatic juice;
- is capable of colonising the human intestine.
- is safe, has no contraindications and causes no side - effects.

REUTERIN[®] IS SAFE

Numerous scientific publications attest the safety of *L.reuteri* DSM 17938 in adults, children and babies. The product can be taken during pregnancy and breastfeeding.

DOSAGE AND INSTRUCTIONS FOR USE

Take 5 drops a day (equivalent to at least 10⁸ CFUs of *L.reuteri* DSM 17938) before or after meals.

Press gently the bottle to dispense the drops. The drops can be taken as they are, or they can be mixed with water or other kind of cold beverage.

The drops do not alter the taste of food or drinks. Reuterin[®] drops can be mixed with milk at a temperature not exceeding 37°C. Do not mix with hot milk or other hot beverages, as this may impair the viability of the probiotics. Shake well before use.

STORAGE CONDITIONS

Reuterin[®] drops should be stored in a cool place (max 25°C). Once opened, the tube is stable for 3 months in a cool place. Close the tube after use. If room temperature exceeds 25°C, the product should be stored in fridge to ensure the viability of the probiotics. The tube contains a white dehumidifier film to ensure product stability; the film is approved for use in direct contact with food, and must not be ingested. Do not freeze. Check the expiry date of the product before consumption.

WARNINGS

Keep out of the reach of children under three years of age.

Food supplements should not be regarded as a replacement for a varied and balanced diet and a healthy lifestyle.

Do not exceed the recommended daily dose. Consult your doctor before giving Reuterin® drops to children under three years of age.
