INFANT GRADE 0+

Reuterin® LMG *Bimbi*

***L. reuteri* LMG P-27481**

Food supplement 8 ml bottle

Reuterin® LMG Bimbi drops is a food supplement with probiotics containing *L. reuteri* LMG P-27481.
The patented strain *L. reuteri* LMG P-2741 colonises the intestine and helps to balance the intestinal flora. Scientific studies has shown that these probiotics are able to overcome the gastric barrier, to arrive alive and active in the intestine, colonising it. Probiotics are normal, non-pathogenic and non-toxic inhabitants of the human gastrointestinal tract and other body regions.

SAFETY
The safety of probiotics is largely demonstrated by numerous clinical studies on their use. Reuterin® LMG Bimbi drops can also be taken by individuals who are intolerant to gluten and lactose.
Reuterin® LMG Bimbi drops is safe for new borns (INFANT GRADE).

DOSAGE AND INSTRUCTIONS FOR USE
It is recommended to take 5 drops or according to your doctor's advice, with or between meals.
One intake per day provides at least 1 billion of probiotics.
Do not mix with hot milk or other hot beverages, as this may impair the viability of the probiotics. Administer the drops as they are or mixed with not sparkling, cold or warm beverages, or with milk, at a temperature not exceeding 37°C. Shake vigorously the bottle before use to guarantee an appropriate re-suspension.
A bottom residue does not compromise the quality of the product.

STORAGE CONDITIONS
Store in a cool and dry place, away from light, humidity and direct heat sources, at a temperature not exceeding 25°C. Do not freeze.

WARNINGS
Food supplements should not be regarded as a replacement for a varied and balanced diet and a healthy lifestyle. Do not exceed the recommended daily dose. Keep out of the reach of children under three years of age.
Close the bottle after use. The validity period refers to the product correctly stored in unopened packaging.
Once opened, store for a maxiumum period of 3 months.
